New task team in town

MAYIBONGWE MAQHINA

AGRICULTURE and rural development MEC Cyril Xaba will lead an interim task team established to revitalise the youth league in KwaZulu-Natal.

The appointment of Xaba was made last week, but has not been announced publicly.

ANC provincial secretary Sihle Zikalala yesterday confirmed the appointment of Xaba and other former youth leaders to rebuild the league's structures after being disbanded last month.

The appointment comes weeks after the top six officials of the ANC disbanded the ANC Youth League national task team that was led by

Cyril Xaba

Mzwandile Masina on the eve of last months national congress, which was converted into a policy conference.

Xaba told The New Age that the task team will facilitate the recon-

vening of its regional conference after the initial conference held six months ago was nullified.

"If we complete the regional conference in the far north, it will mean that KZN would have completed its regional conferences.

The next stage will be the provincial conference."

Asked if there was a deadline for the provincial conference, Xaba said: "It is long overdue. It has got to happen soon."
