BID DOCUMENT FOR THE
CONSTRUCTION OF One (1) SHADECLOTH SEEDLING
NURSERIES FOR THE KWAZAMOKUHLE
June 2018

1. *This document must be read in conjunction with Drawings 1 & 2 (See Table of Contents). If the contractor has the impression that the information provided in the drawing(s) and the technical specifications/Schedule of quantities contradict each other or are perceived to be ambiguous, (s)he should point this out to the Engineer and ask for clarification at an early stage, but not later than before the commencement of any construction. The same applies for purported differences between the technical specifications and schedule of quantities.*
2. *The Engineering Services Directorate (ESD) takes no responsibility for nurseries built on the basis of this document alone without any prior involvement of ESD before (partial) completion. This involvement consists of, but is not necessarily restricted to:*
 - a. *Signing off of the bid/quote document and Drawings by ESD;*
 - b. *Presence of ESD at the handover of the site to the contractor and at the commencement of the work. The contractor is to make sure that ESD is informed of his/her intention to commence the work so that ESD presence can be assured.*
 - c. *Supply to the contractor by ESD of A1 (shed) and A3 (steel portal and latrine) size plans. The drawings supplied with this document are for quoting/bidding purposes only and no construction should take place before the contractor has received the bigger sized building plans.*
 - d. *Regular site inspections by ESD and the processing of invoices on the basis of achieved progress.*
3. *District managers and other departmental end users are therefore required to involve ESD at the earliest possible stage, i.e. during PPC meetings or before submission of the request memo is submitted.*

1) SPECIAL REQUIREMENTS FOR THIS PROJECT

- 1.1 It is suggested that the attached documents be priced with the knowledge that the supplied specifications may be adjusted at the site/bid briefing to allow for project/site specific circumstances.
- 1.2 The terrain of the project sites and to a lesser extent specifications and quantities may vary per school. An adjustment may have to be made if required in order for the nurseries to be successfully erected.
- 1.3 Additional services that may be required, like site levelling should be factored priced under Item 3.

2) BIDDERS TO CHECK COMPLETENESS OF DOCUMENT

- 2.1 The bidder is required to check the number of consecutively numbered pages and should any found to be missing or in duplicate, or the text of figures indistinct, or should there be any doubt or obscurity as to the meaning of any part of these documents, the bidder must ascertain the true meaning or intent of the same prior to the submission of his/her tender, as no claims arising from any incorrect interpretation will be admitted.

3) VALIDITY

- 3.1 All prices must be valid for a period of **four months (120 days)** from the closing date of the tender.

4) FIXED PRICE CONTRACT

- 4.1 The contract shall **not** be subject to contract price adjustment. Bidders must therefore allow for any price increases during the contract duration, including possible delays in awarding the tender in accordance with the validity period.

5) PRICING (SEE ANNEXURE A – PRICING SCHEDULE)

- 7.3 *Apart from that, no amount for AME will be used for the installation of fixed micro jet sprinklers in this nursery.*
- 7.4 For this planned, and the unplanned works the Service Provider will first submit a quote that should be approved by the Engineer prior to supply/construction.
- 7.5 Payment against this item (AME) will be based on supporting documentation including the original supplier's invoices which must be supplied to substantiate the claims (A 10% markup will be allowed). This amount is thus **not** automatically part of the contract amount but will only be available for **works and/or materials** that are not in the specification but are necessary for contract completion.

8) WARRANTY

- 8.1 All workmanship must carry a **warranty of one year** from the date of completion and handover of the works. Payment of the final retention money within a year after handover of the nursery does NOT constitute a waiver of this condition.

ANNEXURE C: PREFERENCE POINT SYSTEM AND EVALUATION OF BIDS

1. COMPLIANCE: QUALIFYING AND DISQUALIFYING FACTORS

- (i) Submission of all information and documentation as listed in the Terms of Reference or Specifications- of the bid document for this particular project. In case this project concerns one of the infrastructure types covered by the Infrastructure Service Provider (ISP) database, bidders would only have to send in updates or additions.

The following documents for the assessment of the capacity and capability are required and non- submission will reduce the bidder's chances of appointment:

- List of experience with similar projects or farm infrastructure in general, with references;
- Short CV's of key staff (may be contracted in);
- In the case of a Joint Venture: Official legal documentation stating the extent of the co-operation;

The following items are compulsory. Non-submission will invalidate the bidder's submission:

- In the case of **contractors**: proof of registration with the Construction Industry Development Board (CIDB) database under the category and grade required for this project (see Table 1: Minimum required CIDB designations per type of infrastructure)
 - In case of Engineering consultants, Project Managers and other non-implementing companies: proof of registration with Consulting Engineers South Africa (CESA), Engineering Council of South Africa (ECSA) or other representative professional bodies;
 - Certified Company Registration Documents;
 - An original and valid Tax certificate.
- (ii) All information required in the bid document must be accurate and duly completed including all the appropriate signatures. This includes the submission of required / requested documentation e.g. valid tax certificate, ZNT 30, etc.
- (iii) Failure to comply with any of the requirements will invalidate your bid.

2 THE 90/10 AND 80/20 PREFERENCE POINT SYSTEM

- (i) Depending on the bid value either the 80/20 (for bids up to R 1,000,000) or the 90/10 point preference point system (for bids of R 1,000,000 and more) shall be applied. Qualifying for preferential points is entirely based on the B-BBEE status of the bidder as explained below.

(ii) CALCULATION OF POINTS FOR ATTAINING THE B-BBEE STATUS LEVEL

This will be done in accordance with the "PREFERENTIAL PROCUREMENT POLICY FRAMEWORK ACT, 05 OF 2000 AND REGULATION OF 2011". Points will be awarded to a bidder for attaining

the B-BBEE status level contributor. Below is the table illustrating points to be allocated at different levels.

B-BBEE Status Level of contributor	Number of points (90/10 system)	Number of points (80/20 system)
1	10	20
2	9	18
3	8	16
4	5	12
5	4	8
6	3	6
7	2	4
8	1	2
Non-compliant bidder	0	0

PLEASE NOTE: Bidders are required to, together with their bids, submit original and valid B-BBEE Status Level Verification Certificates or certified copies thereof to substantiate their B-BBEE rating claims. Bidders who do not submit B-BBEE Status Level Verification Certificates do not qualify for preference points for B-BBEE but will not be disqualified from the bidding process for non-compliance in this regard.

(iii) FUNCTIONALITY

Functionality will be assessed separately from the 90/10 or 80/20 formula. The first stage will be the assessment of functionality upon which the Bidders who score less than 65% for functionality will not be considered further.

The second stage will be the assessment and evaluation of Bidders in terms of 90/10 or 80/20, where 90 (80) points shall be used for pricing scores only and the 10 (20) points for HDI status.

See Tables 2 and 3 on next page for Evaluation Guidelines and Criteria respectively.

**TABLE 2: GUIDELINES FOR EVALUATION**

CRITERIA	GUIDELINES FOR EVALUATION
ABILITY ✚ <i>Capacity</i>	Implement the design and specifications to the standard as directed in the technical specifications.
CAPABILITY ✚ <i>Competency</i> ✚ <i>Experience</i>	Demonstration of competency to render the required service & providing proof of registration with the CIDB or membership of professional bodies such as ECSA, CESA etc. Bidders to provide evidence of similar projects completed recently i.e. not less than 2 projects and not more than 5 projects in the past 5 years.
METHODOLOGY	Provide a short description of your intended implementation methodology indicating time frames to complete the work.

NOTE: In order to ensure meaningful evaluation, bidders must submit detailed information in substantiation of the evaluation criteria mentioned.

Submissions will be scored using the below scoring table. This bid will be evaluated on functionality which will determine the capability, ability and capacity of the prospective bidders to provide the required goods or services for the department. A minimum score of 65% must be obtained by the bidder in order to qualify to be evaluated further for price.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
