48. DISAGREEMENTS

48.1 Notice of disagreement. The Contractor has the right by written notice to the Engineer to require him to consider any disagreement which he raises with the Engineer provided the said written notice shall be given within 14 days after the cause of disagreement has arisen.

48.2 Ruling on disagreements. The Engineer shall give a ruling on the disagreement in writing to the Contractor no later than 14 days after his receipt of a written request from the Contractor requiring him to do so. The Engineer shall provide such a ruling with as little delay as possible. During the response time the Contractor shall not alter the status of the works under contention.

49. FIXED PRICE CONTRACT

49.1 The contract shall **not** be subject to contract price adjustment.

50. PRICING - COMPLETENESS OF BID

50.1 Bidders are required to Bid for all services, products and commissioning as specified in this document and associated plans. This includes those optional items that will be pointed out as required at the bid briefing (e.g. stream crossing bridges, pipes and wing walls and other). If he/she does not bid on all items, his/her bid will be rejected.

50.2 All bid/quoted prices for *line* items are to be in South African currency and must **exclude** VAT.

50.3 All items as described in the project specification are to be priced in full.

50.3.1 Transport/Delivery costs must be included in the pricing if the Pricing Schedule does not list them separately.

50.3.2 VAT must be filled in as the sub total followed by the complete price for the entire project.

50.3.3 The Bid price page must be signed by a person legally authorized to do so.

51. QUANTITIES OF WORK

51.1 The Contractor shall receive payment only for the works actually executed and approved by the responsible Engineer.

52. PROGRESS PAYMENTS

52.1 Payment shall only be made for claims that are corresponding with the works actually executed and complete.

52.2 Payment will only be made against the construction progress as pertaining to **build /installed** items. Movable items and materials on site are generally excluded from progress payments until they have been fully installed or fitted or built up.

52.3 If any item or part of an item in an invoice is disputed by the Engineer, the Engineer shall give notice of such with reasons.

52.4 The Engineer may elect to use a payment schedule that apportions a weighting for the various work phases, in those cases where the actual pricing schedule is not available or lacks balance.

52.5 The contractor shall be paid in up to a **maximum of seven** part payments. The Contractor is strongly advised to request **at least five** payments when being notified of him/her being awarded the contract.

52.6 Part payments will be made after the Engineer has approved the work and will be made in accordance with the Retention clause (56).

52.7 The penultimate payment occurs after practical works completion. The final payment will be made after the 6 months' liability period when the contractor has dealt with all defects, if any.

53. COMPLETION OF THE WORKS

53.1 Work completion will be established over three stages.

53.1.1 Practical completion

This is defined as the stage when the works are found to be substantially complete and can be used for the purposes intended. This assessment will be solely made by the Engineer. When the Contractor thinks he has completed the works, an inspection will be made by the Engineer who will draw up a list of patent defects, commonly known as a "snag list", if any. *Patent defects* are defects that are visible or discoverable upon an ordinary and proper inspection.

53.1.2 Works completion

This stage will be reached after the Contractor has, to the sole assessment of the Engineer, fixed all defects listed on the snag list. It is at works completion that the Contractor will be paid out 50% of his/her retention money.

53.1.3 Final completion

Final Completion occurs 6 months after Works completion, after expiry of the liability period.

53.2 Certificates of Completion and Final Approval will be issued by the Engineer for practical and final construction completion.

54. RETENTION

54.1 A 10% retention will be withheld on payment for the duration of the construction.

54.1.1 The Department will pay out half of this retention, or 5% of the bid value as part of the second last payment at **practical completion** of the works. The remainder, viz 5%, will be paid out at **final completion** after expiry of the defect liability period (06 months after practical completion), the bidder having eliminated all defects.

54.1.2 In some instances, the Engineer may decide to shorten this period order to allow all payments to be completed within the financial year. However, this is **not** a given and the Contractor will be notified during the course of the construction if such would be the case.

55. DEFECT LIABILITY PERIOD

55.1 The defect liability period is **06 calendar months** calculated from the date of Works Completion.

55.2 The contractor shall unconditionally guarantee all materials, workmanship related to the works for that period. The guarantee shall cover any defects due to inferior materials and/or workmanship of the Contractor, or any of his sub-contractors, fair wear and tear excepted. The Contractor shall repair, remedy or replace any such defects, part or complete works without delay and at his own cost.

56. CONTINGENCIES

56.1 An amount of 10% of the subtotal for all materials, equipment and services has been set aside for Contingencies. This allowance will only be accessed for unforeseen additional expenditure not covered in the contract. **Payment of the Contingencies allocation is therefore not a**

given, as the occurrence of limited, or even absence of any approved Contingencies will reduce the total amount paid out for this contract.

56.2 Approval from the Engineer for the use of the Contingencies allocation is required before any purchases can be made or work is started from this allocation. Any allowance must be in line with SCM Delegations.

57. PERIOD OF COMPLETION & RATE OF PROGRESS

57.1 The project has to reach practical completion **within 3 months** calculated from the date of site handover.

57.2 If the Works are delayed by any cause beyond the Contractor's control, the Contractor shall have the right within twenty-one days of any such cause of delay arising, to apply in writing to the Department to extend the date of completion, stating the cause of delay and period of extension applied for.

57.3 The Department upon receipt of such written application may by order in writing extend such date of completion by a period to be determined, or may refuse to extend such date of completion, or may postpone giving a decision upon such application until completion of the Contract period set out in sub-clause (a) of this clause.

57.4 The date of completion will be extended only to the extent approved by the Department.

57.5 Should the Contractor fail to apply in writing for an extension within the time set out above, or should the Department refuse to grant any extension in writing, then the Contract period provided shall not be exceeded.

57.6 When the Works are completed the Department will give a completion certificate and the date of such certificate shall be the date of commencement of the guarantee period.

58. PENALTY CLAUSE / FINES FOR LATE OR NON-COMPLETION

58.1 If the contractor does not complete the work within the time stipulated and no extenuating circumstances can be given for the delay, the Department may impose a fine as detailed below. The total will be subtracted from the retention allowance.

58.2 If the contractor fails to complete the works and the Department is forced to employ another contractor to complete the works, the defaulting contractor will be held liable for the costs as far they exceed the original total Bid value.

58.3 The department will deduct a penalty for late completion of up to **0.05% of the contract value per working day delay**. This will be deducted from the retention.
